Color:	black
Sizes of Riding Helmets:	57

With its luxurious carbon shell, this exclusive helmet offers an elegant appearance, and its high-tech texture lends the look an enviable style. The Star Lady Carbon helmet is 100% designed and manufactured in Italy and combines style, design, and functionality. The eco-leather chin strap is hypoallergenic, washable, and also prevents skin irritation. The inner lining is made of 100% finest merino wool and is naturally antibacterial. The inner shell is made of expanded polystyrene and, thanks to three different density levels, ensures absolute impact protection, comfort, and lightness. The helmet comes with a matching inlay.
