Currently out of stock.

Color:	brown
Horse Size:	Full

Anatomically shaped snaffle bridle designed to avoid the nerves and sensitive areas of the horse's head as much as possible.

Thanks to its anatomical design, it is particularly suitable for sensitive horses. The specially curved noseband ensures that it sits higher on the nose, thereby preventing unnecessary pressure on the nasal bone. In addition, the bridle allows for greater freedom of movement for the bit, which promotes a calm and relaxed ride.

Product information

- **Material:** Vegetable-tanned cowhide
- **Buckle material:** Brass
- Anatomically shaped snaffle bridle
- The specially shaped noseband ensures that the cheekbone and the facial nerve are unobstructed
- The noseband sits higher on the nose, thus avoiding pressure on the more sensitive lower part of the nose
- The noseband avoids the area around the teeth, thereby preventing irritation in the mouth
- Anatomically shaped, extra-wide headstall that keeps the ears clear and distributes pressure evenly
- The headpiece minimizes pressure on the neck strap
- Features soft padding under the headpiece and the noseband
- Wavy browband decorated with gold-colored rhinestones
- White stitching gives the bridle a striking appearance
- Features brass hardware
- Comes with matching reins with buckle closures
