Art.Nr.: 20110H1 / manufacturer:

132,00CHF

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

For the prevention of musculoskeletal disorders (joints, tendons, cartilage, connective tissue) and for the treatment of acute joint problems (osteoarthritis, etc.)

A balanced blend of 30% green-lipped mussel extract, 15% ginger, 15% glucosamine, 10% MSM (methylsulfonylmethane), 10% chondroitin sulfate, and a plant-based flavoring.

Premium green-lipped mussel extract from New Zealand (over 20 g/kg of glucosamine glycan). Glucosamine glycans are essential for the musculoskeletal system and help alleviate problems with joints, tendons, cartilage, etc. The sulfur compounds MSM and chondroitin are also extremely important for the metabolic functions of the musculoskeletal system.

Start with a low dosage (e.g., twice daily). Dosage (large horses): 5–10 g per day.
