Product information

The wider Mono Pro-Jump stirrup leather ensures a more stable and secure position for the rider's leg on the course and in the field. In addition, the padded yet very flat leather noticeably increases comfort. Thanks to its thin, sturdy nylon loop, the stirrup leather can be easily threaded onto the stirrup springs (stirrup clasp), creating a smooth transition between the seat and the saddle flap. The integrated adhesive strip on the inside of the stirrup is made of DeLuxe leather and provides grip without damaging the saddle flap. Additional reinforcement inside the stirrup strap makes it sturdy and durable. The length can be easily adjusted using a pin buckle located beneath the saddle flap (9 cm of adjustment per size). To prevent the end of the strap from getting in the way, it is threaded through an opening into the interior. Available in the following sizes (measured from the top edge of the stirrup strap to the bottom edge of the loop):

- S (strap length from 43 to 52 cm)
- M (stirrup strap length from 47 to 56 cm)
- L (strap length from 51 to 60 cm)
- XL (strap length from 55 to 64 cm)

If the size or color you want is not available, please contact us!
