Riding Boots / Sock Boots CONTACT These high-quality slip-on riding boots (sock boots) impress with their combination of technical materials, exceptional comfort, and innovative details.

- X-KNIT—the innovative knit fabric made of polyamide and spandex—hugs the leg like a second skin and provides an unparalleled level of comfort. Enjoy the lightness around your calves and legs while experiencing maximum compression.

# Product information

- E-SY FIT SYSTEM—represents a new, sporty approach to equestrian footwear—with simplified size adjustment, it accommodates a wider range of leg sizes in both width and height.
- RE-FLEX RIBS—for greater flexibility—support flexibility during bending and proper heel alignment
- POWER GRIP—with hot-melt technology—The innovative patches made of thermoplastic polyurethane (TPU) provide maximum grip and feature excellent abrasion resistance to prevent premature wear
- 3-L SPUR REST - for custom positioning of your spurs - The innovative monoblock allows for three different positioning points for your spurs, enabling you to tailor the fit to your horse’s sensitivity
- LEATHER-SHIELD DESIGN - emphasizes sporty elegance - High-quality leather wraps around the foot area, ensuring optimal stability with maximum flexibility. For an unmatched overall aesthetic
- WING SOLE – high-performance rubber sole – For optimal grip between the boot and the stirrup. Features pronounced cushioning to absorb shocks and vibrations. Improves balance and foot comfort.
- Easy to care for

Material: 70% synthetic fibers, 20% leather, 10% rubber
