Sizes of Herbs: 1 kg

(Latin: Sambuci Flos)

Elderflowers for Horses – Natural Support for Respiratory Function and the Immune System
Our carefully dried elderflowers are a natural dietary supplement for horses and ponies. The delicate, aromatic flowers come from controlled harvesting and are distinguished by their high quality and purity.
Elderflowers combine well with other herbs and are ideal for sweetening bitter herbs—they give the herbs a honey-like aroma that horses love to eat.
Detoxification: Elderflowers
have a diaphoretic effect. This helps flush toxins from the body. They can support the natural detoxification process in a horse's body. Respiratory System:
Elderflowers can strengthen and support respiratory function in horses. Immune system:
Thanks to the many nutrients in elderflowers, they can strengthen the immune system. Allergies:
Elderflowers can be helpful for pollen-related allergies, as they contain a natural antihistamine (e.g., for watery eyes)

Product information

- 100% pure elderflowers
- No additives, gently dried
- Delicate, floral scent
- Popular as a supplement to daily food
