Product information

Instant results, guaranteed not to leave any white hairs—a must-have for every stable first-aid kit.

Derma Gel is an isotonic hydrogel designed to support intensive and rapid skin and wound care in animals. Derma Gel cleanses, nourishes, and conditions the skin while providing moisture. It does not sting and can therefore be safely applied to small, open wounds.

Proven to be produced without genetic engineering, Veterinus Derma Gel does not alter the appearance of the coat. Veterinus Derma Gel is free of banned or toxic substances (safe for doping tests, pregnancy, licking, etc.)

Ingredients: Titrated plant extracts—titrated polysaccharides (Pyrus sorbus extract); Hydrocotyle asiatica (titrated extract); Calendula officinalis extract; Salvia officinalis extract; Thymus vulgaris extract; Origanum majorana extract; Lavandula officinalis extract—in a saline, isotonic gel base.
