Product information

CellaVie® Dog MovePlus Premium Soft Sticks
— Cell Nutrition for Joints. Dietary supplement for dogs

Brief Description

Support your dog’s mobility at the cellular level: CellaVie® MovePlus Soft Sticks combine 81% Swiss lamb with the power of nucleotides and joint-supporting herbs. The perfect premium supplement for resilient joints, smooth movement, and pure joy of life.

Joy of movement down to the smallest cell—CellaVie® Dog MovePlus Premium Soft Sticks

Nothing is more wonderful than seeing a vibrant dog enjoying life to the fullest. But stressed joints, intense exercise, or advancing age can limit mobility. While conventional joint supplements often provide building blocks, they overlook the crucial driver of regeneration: the cell.

CellaVie® MovePlus Premium Soft Sticks revolutionize joint support through a combination of proven natural ingredients and the innovative Cell-K30-Nutrition® formula. While high-quality herbs such as devil’s claw, frankincense, and turmeric support joint function, the nucleotides they contain provide the essential “software” for renewal processes. Since joint tissue is in a constant cycle of building and breaking down, MovePlus ensures a supply of cellular building blocks exactly where regeneration is needed. With 81% fresh Swiss lamb, this joint supplement is not only highly effective but also a culinary treat for every dog.

5 reasons why CellaVie® MovePlus Premium Soft Sticks are good for your dog:

- Cell-Active Regeneration: Contains Cell-K30-Nutrition® nucleotides, which promote the biological renewal processes of stressed joints.
- Powerful Joint Matrix: The combination of green-lipped mussel, collagen, and krill provides valuable building blocks for cartilage and tissue.
- Natural Herbal Power: With devil’s claw, frankincense, turmeric, and stinging nettle to specifically support mobility and vitality.
- Highest Swiss Quality: 81% fresh Swiss lamb ensures maximum palatability and a clean formula free of unnecessary fillers.
- Optimal Bioavailability: Nucleotides act as “builders,” helping to efficiently convert absorbed nutrients into the body’s own tissues.

Composition & Analytical Components

Composition: Swiss lamb (fresh meat, offal) 81%, plant fibers, potato flakes, collagen, green-lipped mussel, Cell-K30-Nutrition® nucleotides 1.2%, meadowsweet, krill, devil’s claw, frankincense, stinging nettle, turmeric, minerals.

Analytical Constituents:

- Crude protein: 43.55%
- Crude fat: 19.36%
- Crude fiber: 11.92%
- Crude ash: 5.57%
- Moisture: max. 18%

Feeding Recommendations & Usage

Daily feeding recommendation: 1 soft stick per 10 kg of body weight.

Usage: The soft sticks can be given as a healthy treat between meals or as a targeted treatment. For optimal results, the product can be ideally combined with the CellaVie® MovePlus blend. Please always provide your dog with plenty of fresh water.

Storage: Store in a cool, dry place. Once opened, reseal the bag tightly to preserve the soft texture and freshness of the ingredients.
