Filling:	0 g
Neck Section of the Blanket:	with neck piece (fixed)

The WeatherBeeta ComFiTec Airflow II Combo offers comfort in every way and first-class protection with 75%+ UV protection. The soft and durable polyester mesh outer material is breathable. It offers maximum insect protection with the NEW Ultra belly flap and the full-wrap tail flap, featuring a two-piece design that hugs the horse’s hindquarters. The elastic inserts at the withers provide additional comfort while grazing, and the traditional gussets ensure that natural movement is not restricted. The Ezi-Clip chest closure makes putting on and taking off the blanket quick and easy, and thanks to the elastic, adjustable, and removable leg straps, the blanket stays securely in place.

- Soft, durable polyester mesh
