119,90CHF

incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Color:	black
Horse Size:	Full

Our Swedish-style Mia bridle is our most popular dressage bridle! It’s made of very high-quality leather. This leather is known for its excellent durability and sturdiness during daily use. The headband features screw-mounted rhinestones in various sizes, ensuring that each stone stays securely in place for a long time. The headpiece and noseband are softly padded and conform perfectly to the horse’s head. The noseband is wrap-around, requiring fewer buckles. The noseband tapers toward the sides to relieve additional pressure on the lateral nerve pathways.

- Swedish noseband, wrap-around style
- Padded headpiece and noseband
- Noseband tapers toward the sides
- Curved browband with embedded white stones
- Bridle hooks on the bit parts
- Includes narrow, rubberized reins with barbs

The cheekpieces on the KB size are significantly wider (2.5 cm).

Additional Information
Noseband: Swedish-combined
Size: PII (full-size pony), V, W, KB
Weight: 0.8 kg
Fittings: silver
Color: black

Usage of the Mia bit, Swedish-combined
Similar to a Hanoverian noseband, a Swedish-combination bridle keeps the horse’s mouth closed. When fastened correctly, the horse’s mouth is kept closed by the stop strap, thereby stabilizing the bit in the horse’s mouth. If the noseband is not pulled too tightly, the horse’s breathing and nerve pathways are not impaired. Unlike an English-style combined bridle, the Swedish version features a pulley at the back of the noseband. Swedish-style combined bridles are most commonly used with curb bits and dressage bits.
The Mia snaffle bit is very well suited for daily use. The stones on the headband are set much more securely than on conventional snaffle bits. The extra-wide noseband ensures perfect elegance during dressage.

Care Instructions
To ensure the bridle’s longevity, we recommend using the leather care products “Horseman’s One Step” (Item No. 504 01) or “Leather Therapy Wash” (Item No. 509 02).
