Product information

Hard-shell case: Yes

"Hard-Shell Protection and Flexibility" The unique Hybrid Jumping Boots and Fetlock Caps add two more innovative products to the Stübben & Evolution product line: The horse’s tendons and fetlocks are anatomically protected while ensuring maximum comfort and performance, and the revolutionary hard-shell design guarantees free, natural movement without restrictions. The Stübben & Evolution Hybrid products offer reliable protection against impacts—while the breathable design ensures constant ventilation of the horse’s leg. The Hybrid jumping boots and fetlock boots are available with or without a fleece lining in sizes M and L in brown and black.
