Product information

The Belvoir Step1 Tack Cleaning Glove is a high-quality care tool for gently cleaning equestrian leather products. The glove combines practical use with a special leather soap that reliably removes dirt, grease, and sweat without damaging the leather surface. This makes the daily care of tack, bridles, and other leather accessories simple and gentle on the material.

The formula is designed to clean leather while keeping it supple. No additional water is required, making it particularly suitable for everyday use—in the stable, before a competition, or on the go. Since it can be used on both sides and the glove can be worn inside out, it serves as a versatile tool for quick touch-ups whenever needed.

- **Leather Care Glove** with Integrated Leather Soap
- Gently removes dirt, grease, and sweat from leather surfaces
- No water needed for use
- Can be used on both sides as well as inside and out
- Doesn’t leave your hands sticky
- Convenient and easy to carry, even to tournaments
- **100% biodegradable**

As a leather care product, this glove stands out for its clear focus on functionality, material protection, and ease of use. Especially for equestrian gear used regularly, it helps maintain a clean, well-cared-for appearance and contributes to extending the lifespan of leather items.
