Safety with perfexxion!
uvex perfexxion III—The pentagonal honeycomb structure of the enlarged ventilation channels is just one element of its innovative design. With its matte color combinations, it’s sure to get a rider’s heart racing.
The uvex perfexxion III is the perfected combination of sportiness, climate control, and safety. uvex product developers and designers have poured all their expertise into the development of this riding helmet: One of the safety-related innovations is the outer shell extended at the back of the head. Extending it over the nape ensures maximum safety—even for the back of the rider’s head. A cutout for the ponytail ensures a comfortable fit. This is where innovation becomes visible: Thanks to its sleek shape, the uvex perfexxion III is particularly lightweight and ergonomically tailored to the demands of competitive riding. This riding helmet

Product information

offers protection that is as lightweight and comprehensive as ever before: uvex dynamic ventilation combines forward-thinking design with optimal climate control. Thanks to large air channels combined with a honeycomb structure, the helmet ensures optimal climate management at all times. Wearing comfort is further enhanced by the interior: Washable pads made of soft-touch material and memory foam, along with the 3D IAS size adjustment system, guarantee a perfect fit on any head at all times. The uvex perfexxion III makes riders almost forget they’re wearing a helmet.
