CellaVie® Cell Power Powder
Cell Nutrition. Dietary supplement for dogs

Brief Descriptions

Restore your dog's vitality—right down to the cellular level! CellaVie® Cell Power replenishes vital nucleotide stores, ensures flawless cell division, and supports the body's natural repair processes. The simple powder for greater vitality, strong resilience, and a healthy life for your dog.

CellaVie® Cell Power: Fundamental building blocks for a long, healthy dog's life

Health begins at the cellular level. Just like in humans, the cells in your dog's body renew themselves every day. For this delicate process of cell division and DNA replication, the body needs essential building blocks: the so-called nucleotides.

If there is a deficiency of these important DNA and RNA building blocks, the risk of errors during cell division increases. Necessary repairs in the body go unaddressed, which can quickly manifest as a noticeable loss of vitality and increased susceptibility in your dog.

This is exactly where CellaVie® Zellkraft comes in: This high-quality powder specifically replenishes nucleotide stores and supports your dog's body where it matters most—right inside the cell.

5 Reasons Why CellaVie® Zellkraft Is Good for Your Dog:

- Promotes error-free cell division: Provides essential building blocks to ensure the precise replication of genetic information (DNA).
- Strengthens resilience: Optimally nourished cells noticeably reduce your dog's overall susceptibility to illness.
- Supports the body's own repair processes: Ensures that important cell repairs aren't halted due to a lack of "building materials."
- Promotes greater vitality: Replenishes depleted nutrient stores and effectively prevents fatigue and loss of vitality.
- Ideal for every life stage: Provides long-term support for the body, whether for growing puppies, active sporting dogs, or senior dogs.

Composition & Analytical Components

Composition: Cell-K30-Nutrition® Nucleotides

Analytical Constituents:

- Crude protein: 65.0%
- Crude fat: 2.1%
- Crude Fiber: 1.8%
- Crude ash: 6.5%

Feeding Recommendations & Usage

Using CellaVie® Zellkraft is simple and can be easily incorporated into your daily routine:

Daily feeding recommendation: 1 measuring spoon per 10 kg of body weight.

Usage: Simply mix the powder into the daily feed.

Special Feature: Excellent for long-term use. In cases of special need (e.g., during periods of stress or after illness), the amount can be safely doubled.

Storage: Please store in a dry place away from light.
