49,90CHF

incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

The Muenster is an equestrian glove unlike any other. That’s because ROECKL SPORTS uses resource-efficient Vita Lycra on the back of the hand and micro-perforated ROECK-AIR on the palm.
The breathable, highly elastic Lycra material is made with ECONYL® yarn derived from recycled nylon waste. And the breathable, elastic, and reliably grippy ROECK-AIR is not only extremely comfortable and lightweight against the skin, but also provides a very fine connection to the horse’s mouth thanks to its high tactile sensitivity. This successful combination of materials, together with ROECKL’s proven COMFORT-CUT, also ensures a first-class fit and maximum comfort during summer riding sessions.
And the Muenster’s design is impressive as well: timeless and elegant, it’s a real eye-catcher; the sporty ROECKL logo along the back of the hand adds a stylish touch. The practical Velcro closure featuring the stylized ROECKL hand logo provides a comfortable and secure fit at the wrist. In addition, the glove is fully TOUCHSCREEN COMPATIBLE.
ROECKL recommends washing riding gloves like the Muenster regularly (in the washing machine at 30 degrees) to ensure they retain their functionality and provide long-lasting enjoyment while riding.
