Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Size of the bit:	14 cm
Thick bridle:	18 mm

The Sensogan KK Ultra training bit from Sprenger was designed for the extremely sensitive horse’s mouth.
The innovative KK ULTRA bits utilize the sense of touch in the tongue, which is just as sensitive in horses as it is in humans. The tongue is a highly sensitive sensory organ and amplifies the signals transmitted to the horse’s mouth through the rider’s rein aids. When the reins are tightened, the center piece of the Sensogan KK ULTRA training bit rests firmly on the tongue without squeezing it or exerting pressure on the palate or the sides of the mouth. The connecting rings to the center piece roll over the tongue. The new position of the center piece and the side parts of the bit enhances the tactile sensation of the tongue. The rider’s rein aids are

Product information

transmitted more precisely and sensitively to the horse’s mouth. The Sprenger Sensogan KK Ultra training bit ensures an incomparably sensitive connection between rider and horse. When switching to a KK ULTRA bit, an immediate improvement in contact is usually noticeable. The anatomically contoured mouthpiece of the Sensogan KK ULTRA training bit is particularly comfortable for the horse and promotes suppleness, as it allows you, the rider, to apply aids with greater sensitivity.
PLEASE NOTE:
In size 14 cm, the snaffle rings are also gold.
