Currently out of stock.

Size of the bit:	13.5 cm
Thick bridle:	16 mm

This bit promotes acceptance of the bit and encourages the horse to lean laterally. This makes riding turns easier. The mouthpiece is held calmly in a consistently central position so that rein aids can be optimally transmitted to the tongue.

The single-jointed version of the successful double-jointed Dynamic RS bits. The ergonomically shaped mouthpiece allows for quick and precise influence on the tongue compared to conventional single-jointed bits. The pressure is distributed evenly across both sides of the tongue. Helpful for horses that are very active with their mouths, get distracted by the center piece of double-jointed
