The uvex blaze III is a true all-rounder. Its innovative interchangeable lens technology, featuring three different lens types, guarantees top performance in any weather.
Cycling yesterday, jogging today, hiking tomorrow. People with an active lifestyle need sports and leisure eyewear that can keep up with just about any adventure while providing reliable protection from the sun, dust, wind, and insects. That’s exactly why the uvex blaze III was developed with innovative interchangeable lens technology. Its interchangeable lenses—available in clear, litemirror orange, and smoke—ensure optimal glare protection and the best possible vision in any weather. Equipped with soft nose pads and soft temples for a comfortable and secure fit.
