CellaVie® Dog MovePlus Joint Powder
— Cell Nutrition for Joints. Dietary supplement for dogs

Brief Descriptions

Support your dog's mobility at the cellular level with CellaVie® Dog MovePlus Joint Powder. The unique combination of traditional joint nutrients and the innovative Cell-K30-Nutrition® nucleotide blend promotes the efficient regeneration of cartilage and tissue. For smooth movement, more vitality, and a carefree zest for life every day!

Supple Joints Through Revolutionary Cellular Nutrition

An active dog's life, full of vitality and a love of play, depends on a healthy musculoskeletal system. However, due to daily stress, intense training, or the natural aging process, cartilage and joint tissue are in a constant, energy-sapping cycle of building and breaking down. If the body lacks the energy and the right building blocks for this process, the dog's mobility and quality of life suffer significantly.

CellaVie® Dog MovePlus Joint Powder offers an innovative, comprehensive solution. It combines proven, natural joint nutrients such as green-lipped mussel, collagen, and devil's claw with the revolutionary nucleotide blend Cell-K30-Nutrition®.

Nucleotides are the essential "software of life." While ingredients such as proteins and amino acids provide the building blocks, nucleotides act as the "construction workers" who efficiently process these building blocks.

This unique formula, developed by Dr. Peter Koeppel, ensures cellular nourishment exactly where it's needed. External sources of nucleotides significantly promote renewal processes after physical stress, relieve the metabolic burden, and ensure more efficient regeneration. The result: resilient joints, smooth movement, and long-lasting vitality for your four-legged friend—produced with reliable Swiss quality.

5 Reasons to Choose CellaVie® Dog MovePlus

- Deep-acting cellular regeneration: The exclusive 12% concentration of Cell-K30-Nutrition® nucleotides provides the essential building blocks for rapid cell renewal in stressed joints.
- Holistic joint formula: A powerful synergy of proven ingredients such as collagen, green-lipped mussel, and krill naturally supports cartilage and joint structure.
- Powerful Plant Extracts: Enriched with valuable herbs and extracts such as devil's claw, frankincense, turmeric, and meadowsweet, which naturally possess the best properties for the musculoskeletal system.
- High Bioavailability & Purity: Developed based on over 30 years of biochemical research and free from unnecessary fillers to guarantee optimal absorption.
- Easy to Feed: The highly palatable powder is a breeze to incorporate into the daily diet and is suitable for any feeding method.

Composition & Analytical Components

Composition: Collagen, green-lipped mussel, Cell-K30-Nutrition® nucleotides (12%), meadowsweet, krill, devil's claw, frankincense, stinging nettle, turmeric

Analytical Constituents:

- Crude protein: 49.40%
- Crude fat: 10.01%
- Crude Fiber: 3.11%
- Crude ash: 2.64%

Feeding Recommendations & Usage

Daily feeding recommendation: 1 measuring spoon per 8 kg of body weight.

Usage: Simply mix the powder into your dog's regular food. If necessary, you can also lightly moisten the mixture with water and then sprinkle it over the meal.

Special Note: Please always provide your dog with plenty of fresh water.

Product information

Storage: To best preserve the valuable nutrients, please always store the product in a cool, dry place away from direct light.
