Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Microalgae are true **all-around health benefits** and have been shown in studies to have a positive effect on metabolism, which is the foundation of all vital processes in the body. Their bioactive compounds strengthen the immune system and support the health and function of joints, muscles, the gastrointestinal tract, and the cardiovascular system. They are also ideal for preventing age-related diseases. Spirulina is very well tolerated by sensitive horses and can help alleviate the effects of allergic reactions.

Dosage:

50 g per horse per day for a body weight of approximately 500 kg. Equivalent to 2 measuring spoons.
