Color:	black
Horse Size:	Full

Bridle with Combined Noseband
The headpiece is extra thin and cut out at the ears, distributing pressure across the head. The soft lining provides your horse with great comfort. The design of the noseband also reduces pressure on the neck. There are adjustment options on both sides of the noseband, ensuring a perfect fit. The bridle is specially designed to relieve pressure behind the ears. It is made from English Sedgwick cowhide, which is considered the best bridle leather in the world!
Silver bucklesReins are not included
