Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Material:	Plastic
Thick bridle:	18 mm

The NATHE water snaffle is back—and it’s come with an upgrade! We’ve replaced the plastic joints with stainless steel and angled them forward by 45°. This prevents pressure on the palate and ensures even pressure distribution. The high-quality thermoplastic has a smooth surface, is food-safe, and free of plasticizers and solvents. Additionally, thermoplastic is temperature-neutral, making the bit comfortable for the horse even in cold temperatures.

- Made of high-quality thermoplastic
- Smooth surface, no “eraser effect”
- gentle on the mouth Stainless steel joint angled 45° forward
