Container Size: 250 g

Experience the outstanding benefits of Tri-Flex, the premium joint supplement from Horseandmore, specially formulated to support your horses' joint health and mobility. Tri-Flex combines high-quality ingredients that are scientifically proven to improve joint function and reduce inflammation.

Benefits of Tri-Flex:

- Highly effective formulation: Contains glucosamine, chondroitin, and MSM—essential building blocks for healthy joints and cartilage.
- Anti-inflammatory: Can reduce inflammation and pain, promote regeneration, and increase mobility.
- Promotes joint lubrication: Supports the production of synovial fluid, which is essential for smooth movement.

Product information

- Improves resilience: Strengthens the joints and can promote the long-term health and performance of your horses.
- Easy to use: Easy to measure out and can be simply mixed into the daily feed.

Why Tri-Flex?
Tri-Flex is the ideal choice for sport horses, older horses, and those suffering from joint problems (osteoarthritis). For young horses, it can contribute to optimal cartilage development. Regular use can increase mobility and significantly improve your animals' quality of life. Our unique blend can help ensure that your horses can once again move with full energy and without pain.
Composition:

- 28% glucosamine: Supports the development and maintenance of healthy cartilage tissue.
- 30% chondroitin: Promotes joint elasticity and resilience.
- 42% MSM (methylsulfonylmethane): Has anti-inflammatory properties and improves joint function.

Directions: The recommended dosage depends on your horse's weight and individual needs. Tri-Flex can simply be mixed into the daily feed and is suitable for long-term use.
Very economical. A 750 g can lasts for about 2 1/2 months!
Caution: MSM is now subject to anti-doping regulations. MSM contains natural active ingredients (anti-inflammatory, analgesic) that, under the Anti-Doping Act, must not be fed to sport horses within 72 hours of competitions.

Trust in Horseandmore's quality: At Horseandmore, we place the utmost importance on quality and effectiveness. All our products are developed by certified veterinary naturopaths using only the highest-quality raw materials; they are manufactured under the strictest controls and regularly tested for purity and effectiveness. This way, you can be sure you're giving your horse only the best.
