Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Color:	black
Material:	Rubber
Horse Size:	Cob

These Flex reins, made of rubber and Brazilian cowhide leather by Silver Crown, feature subtle white decorative stitching.The rubber rein is typically covered with rubber for three-quarters of its length. This ensures you always have a firm grip. Even in the rain or with horses that tend to pull the reins out of your hands, these rubber reins perform reliably, and you always maintain contact with the horse’s mouth. The reins attach to the bit with a bridle hook. They’re also very durable and require very little maintenance.
