Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Color: pink, green

High-quality sun protection for the little ones: The uvex sportstyle 510 reliably protects children from UV rays. The frame is made entirely of flexible rubber that gently conforms to the head and remains undamaged even if the glasses happen to land on the ground.
Good sun protection for the eyes is important—even for the youngest children. And who wants to be blinded while taking their first steps in Mom or Dad’s athletic footsteps? With the uvex sportstyle 510, kids are perfectly equipped for their first outdoor adventures. The fully flexible frame fits comfortably on the head without causing pressure, even when worn with a helmet or cap, and is virtually indestructible. The included eyewear strap also helps prevent the glasses from falling off or being thrown.
Made for: Young aspiring athletes
Special features: flexible frame, Eyewear Strap, 100% UVA, UVB, and UVC protection
