Container Size: 3 kg

For clear airways and healthy lungs

- has an expectorant effect
- supports cell regeneration
- relieves spasms and soothes
- relieves the urge to cough

Product Description

Natural support for healthy airways

EQX Respiratory is the ideal support for horses with respiratory issues. The herbal blend of ribwort plantain, thyme, and chamomile helps your horse cough up mucus and prevents it from settling in the airways. This allows your horse to breathe freely again quickly. The pellets are dust-free and therefore particularly well-suited for horses prone to allergies or respiratory issues.

Product information

Active ingredients that help:

- Ribwort plantain: Relaxes, protects the respiratory tract, and soothes a dry cough.
- Thyme: Supports lung function and helps loosen mucus.
- Chamomile: Soothes the respiratory tract and relaxes the bronchi.

Usage and Dosage:
1 measuring spoon (approx. 10 g)
once daily per 100 kg of body weight. EQX Respiratory is super easy to feed—simply mix the pellets into your horse's daily feed or feed them directly. This natural blend of herbs ensures that your horse can breathe freely again quickly. Ideal for:

- Early signs of respiratory problems
- Colds or sore throats
- Acute and chronic coughs
- Asthma (such as COB, COPD, RAO, IAD)
- Allergies, especially dust allergies and allergic coughs

With EQX Respiratory, you help your horse breathe healthily and calmly—simply and naturally!

Ingredients

Composition:

Herbs (thyme, ribwort plantain, chamomile), cold-pressed oil blend (flaxseed, sunflower seeds, black cumin seeds, grape seeds, canola), yeast products (rich in RNA and nucleotides), corn germ, beet pulp, diastatic malt, cracked yellow flaxseed, dextrose, chicory inulin

Analytical Constituents:
Crude
protein (10.2%), crude ash (8.7%), crude fiber (18.0%), crude fat (9.0%), calcium (Ca) (0.7%), potassium (K) (2.1%), magnesium (Mg) (0.2%), sodium (Na) (0.1%), phosphorus (P) (0.3%), starch (4.0%), sugar (0.4%)

Technological additives:

Clinoptilolite of sedimentary origin 1g568 (400 mg)

Notes

Not suitable for pregnant mares or foals under 6 months of age. Suitable for horses with asthma. Contains yeast products. Pellets, ideal for horses with dust allergies. Made in Germany.

Anti-Doping and Medication Control Rules

According to the anti-doping and medication control rules of the German Equestrian Federation (DEV), this product has a recommended withdrawal period (from the last use of the product until competition) of 48 hours. According to the FEI (Fédération Équestre Internationale), this product is not relevant to doping.

Storage Instructions: Do not store above 25°C. Use within 6 months after opening.
