The WEATHERBEETA DELUXE Shoulder Pad in Black for Cob is designed as a functional shoulder pad for use under blankets and ensures a comfortable fit in the shoulder and withers areas. The quilted material reduces friction that can result from movement or contact with the blanket, thereby contributing to a more comfortable fit.

The well-thought-out design allows it to be easily pulled over the horse’s head and fits snugly against the body without adding unnecessary bulk. Especially for cob-sized horses, the shoulder pad offers a custom-fit solution for daily use in the stable or out in the pasture. The black version has a subtle look and can be easily paired with various outfits.
