Product information

Step 2: Softens, preserves, and adds shine to the leather.

Made according to the original recipe to care for, protect, and add shine to leather. A pure, clear, high-quality conditioner with glycerin and coconut oil for regular use with minimal effort. The glycerin fills and seals the pores of the leather to form a barrier against salt, dirt, grease, and water. Use after Step 1 Cleaner.

Directions: Spray evenly onto clean leather and rub in gently with a cloth or sponge. Once dry, polish with a soft, dry cloth. Not suitable for aniline or untreated leather, suede, or nubuck.

Test
on an inconspicuous area before use
