A natural healing cream for topical application to the skin in cases of superficial injuries in horses.

Officinalis Cycatrex is a must-have in every stable first-aid kit

The natural active ingredients in this cream have nourishing and soothing properties. It is specifically intended for use on horses with skin abrasions, injuries, and cuts. It reduces scarring, protects and nourishes the skin, and has a soothing effect on skin inflammation. Cycatrex Cream has excellent protective and nourishing properties. It has a wide range of uses; for example, it can also be applied to the pastern area and used for scar care.

Directions: Apply
to the cleaned area and rub in. Do not apply to bleeding wounds

Product information

Composition
: Extracts of calendula and St. John’s wort, 10% zinc, 0.1% colloidal silver.
