ImmunPlus, Powder, 130g

Art.Nr.: CE-300415 / GTIN: 7640169832093 / manufacturer:

24,70CHF

incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

CellaVie® Dog ImmunPlus Powder
—Cell Nutrition for the Immune System. Dietary supplement for dogs

Brief Description

CellaVie® Dog ImmunPlus Powder is a highly effective cellular nutrient for a robust immune system. The unique formula combines proven natural ingredients such as krill and echinacea with 15% bioavailable Cell-K30-Nutrition® nucleotides. These essential DNA building blocks accelerate the production of immune cells, enabling the body's own defenses to respond immediately and powerfully.

The cellular shield for a lightning-fast and strong immune response

Your dog's immune system is its most important guardian and works around the clock. When pathogens attack or the body is under stress, the body's own defenses must produce millions of new immune cells in the shortest possible time. The problem: This extremely rapid cell division requires the body to produce enormous amounts of specific building blocks (nucleotides). Since the immune system cannot produce these quickly enough on its own during peak periods, a dangerous supply gap arises that slows down the body's defenses.

The solution is CellaVie® Dog ImmunPlus Powder—a revolutionary cellular nutrient that supports the immune system exactly where it matters most. The formula combines the natural power of proven ingredients such as krill, rose hip, echinacea, and rockrose with 15% highly effective Cell-K30-Nutrition® nucleotides. These nucleotides deliver the essential building blocks of DNA and RNA directly to the body. Instead of wasting valuable time and energy producing these building blocks on its own, your dog's immune system can react immediately and effectively form new immune cells. Close the gap in your dog's nutrient intake and give your dog long-lasting, resilient vitality.

5 reasons why CellaVie® Dog ImmunPlus Powder is good for your dog:

- **Accelerates the immune response:** Since the nucleotides it contains are immediately available, the body can produce new immune cells without delay and fight off infections more quickly.
- **Fills the biological supply gap:** The immune system continuously consumes nucleotides but often cannot produce enough on its own—the powder provides exactly this essential external supply.
- **Promotes cell renewal and repair:** As fundamental building blocks of DNA and RNA, nucleotides actively help the body repair damaged cells and build new tissue.
- **Harnesses the concentrated power of nature:** With valuable natural ingredients such as krill, MOS, rose hips, echinacea, and rockrose, the body's own defenses are further strengthened in a natural way.
- **Scientific Swiss quality:** The exclusive Cell-K30-Nutrition® Mix is based on decades of cellular research, is manufactured in Switzerland under the strictest quality controls, and contains no artificial fillers.

Product information

Composition & Analytical Components

Composition: Krill, MOS, rosehip, echinacea, Cell-K30-Nutrition® nucleotides 15%, rockrose.

Analytical Constituents:

- **Crude protein:** 31.97%
- **Crude fat:** 9.29%
- **Crude Fiber:** 9.58%
- **Crude ash:** 4.97%

Feeding Recommendations & Usage

- **Daily Feeding Recommendation:** 1 measuring spoon per 8 kg of body weight.
- **Usage:** Simply mix the powder into your dog's regular food. You can also lightly moisten the mixture with water and then sprinkle it over the food to ensure optimal intake.
- **Special Notes:** Please always provide your dog with plenty of fresh drinking water. The powder is excellent for daily, long-term support of the immune system.
- **Storage:** Store in a cool, dry place away from light to best preserve the valuable ingredients.
