Seat size:	17 (56–79 kg)
Chamber width:	33 (Standard)
Pre-cut:	A+2 / A: +2 cm
Pillows:	LPF (wool pillow)

X-Perience - A Masterpiece Featuring X Technology The X-Perience saddle is an evolution of the previous model and retains both the quality and the riding feel that distinguished its predecessor. The saddle features a wide rear seat and new membranes injected into the “unisex” tree, designed to support the anatomy of both genders. These innovations make the saddle exceptionally comfortable. This seat is available in two depths: MD (semi-deep) for riders who prefer a more centered position, and MF (semi-flat) for those who want greater freedom of movement. The non-sewn flaps allow the sweat flaps and panels to better conform to the horse’s anatomy without restricting its movement. Thanks to its five different pad options, the X-Perience saddle adapts to every horse’s body type and all the rider’s needs: three LPF versions (integrated, non-integrated, and FSF—non-integrated) and two latex versions (integrated and non-integrated). The panels feature a wide contact surface for better pressure distribution. Upon request, “Comfort Skirts”—small, double-layered saddle flaps made of calfskin and Cordura—can be selected to enhance communication between horse and rider and further improve comfort. **INFO:** The images shown are standard illustrations of the respective saddle model. Colors, decorative stitching, and product-specific details may differ from the actual product delivered.
