Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Product information

100% Made in Italy: Design and Manufacturing KEPPY is a true revolution. Its design, characterized by the clean, minimalist lines typical of the KEP brand, was developed for the youngest riders who wear sizes 49 to 53. The outer shell is made of ABS. The padding is replaceable, so there’s no need to replace the helmet as the head grows. Simply replace the removable and washable inner padding. The helmet’s exceptionally light weight and breathability keep the wearer’s head cool at all times and ensure the helmet is never perceived as a nuisance. The 4-point strap is made of hypoallergenic, very comfortable nylon that prevents skin irritation. The polyester inner padding can be removed and washed by hand, in the washing machine at 30°C, or in cold water. Research conducted by KEP Italia has made KEEPY a versatile and modern product. One of the newly introduced technologies is the innovative visor attachment system developed by KEP Italia, which allows the rider to independently attach, replace, or remove the visor in just a few simple steps. In addition to the visor, the inserts are also removable and can be easily replaced by the rider. Weight: +/- 415 grams **Sizes 49–53: Please specify in the comments when ordering!**
