Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Product information

The hammer-shaped tip of this spur is ideal if you want to give your horse a more precise prompt and apply pressure as selectively as possible.

Thanks to their sophisticated design, these spurs also look particularly elegant on your riding boots. And because they’re made of shatter-resistant, rust-proof stainless steel, they can withstand all the challenges of your daily riding routine.

A particularly practical bonus: The spurs can be easily and individually adjusted to fit your foot.

Please note: Spur straps are not included.
