incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

# Product information

Color: black

uvex product developers and designers have poured all their expertise into refining this equestrian helmet. The result is the uvex exxential II:

A **very lightweight** riding helmet with **an innovative shape** and design that is **ergonomically** tailored to the needs of riders. One of the safety-related innovations, for example, is the outer shell that extends to the back of the head. It ensures **maximum safety**—even for the back of the rider's head. A cutout for the ponytail—the so-called "ponytail cut"—ensures a comfortable fit. This riding helmet offers comfort and comprehensive protection like never before. Thanks to its in-mold construction, the uvex exxential is very lightweight while still providing **the highest level of safety**. The improved climate control ensures you always stay cool. With the uvex Monomatic comfort closure, the FAS strap system, and the IAS 3D size adjustment, the helmet can be adjusted multidimensionally **to fit the rider's head shape with millimeter precision**. Like all uvex helmets, the uvex exxential II meets current safety standards and exceeds them at all times.
