Neck Section of the Blanket:	optional (sold separately)

The **Amigo® 1200D Turnout 250g** is a classic, reliable turnout blanket that provides your horse with warmth, durability, and flexibility.

The blanket is made of a **sturdy 1200D polyester outer fabric; it is waterproof and highly breathable**, ensuring protection from the elements while keeping your horse comfortable. The 250 g thermobonded fiber filling provides exceptional warmth and excellent heat retention, while the 210T polyester lining—which enhances shine and is **both antistatic and antibacterial**—helps maintain a healthy coat by reducing friction and bacterial growth.

This blanket is designed for a secure and comfortable fit and features a **V-front closure** to relieve pressure on the shoulders, foreleg straps for greater freedom of movement, and **three crossed girth straps** for stability. A **waterproof tail flap** and a wipe-clean PVC tail cord provide additional protection from the elements.

For added versatility, this blanket is compatible with leg straps and integrates seamlessly with the **Horseware® liner system**, allowing for easy layering. For complete protection, it can be paired with a removable Amigo® turnout hood (sold separately).

Featuring reflective strips for improved visibility, the Amigo® 1200D Turnout 250g is a proven and practical choice for keeping your horse warm and protected in cold weather.
