Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Color:	brown
Size of Gaiters / Bell Boots:	L

The three-layer foam construction ensures **optimal protection without being too stiff**, making this hoof bell the ideal choice for the horse. The pads of the front legs are among the horse's most sensitive body parts and are often struck by the shoes on the hind hooves, especially during the landing phase after a jump. Hoof bells effectively protect the pads from accidental impacts.
