Product information

Soft'Up Lite

Art.Nr.: D-F00004 / manufacturer: Freejump

209,00CHF / Couple

incl. 8,1% VAT incl. Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

- The SOFT'UP LITE's Monobranch technology r**educes the force exerted on each stirrup by one-third,** thereby reducing pressure on the rider's joints and relieving strain on the horse's back. This advanced design not only improves comfort but also enhances durability and performance.
- The **outer leg of the stirrup is made of Elastollan®, a flexible material** that deforms, allowing the leg to open to facilitate the release of the foot in the event of a fall.
- Shock absorption and comfort.
- Equipped with a Super-Grip, it offers **optimal traction**, enhanced by raised studs. The integration of fiberglass into the tread ensures unmatched durability.
- The forward-shifted center of gravity tilts the tread surface backward, **allowing for a natural foot angle** and encouraging the heel to drop. With its 45° orientation, the SOFT'UP LITE's eyelet makes it easy to slip on and follows the leg's natural movement, providing true comfort.
- The pins on the SOFT'UP LITE's mini-arm are interchangeable, allowing for customization with different colors, patterns, or flags.

Warning: FREEJUMP stirrups are not PPE (Personal Protective Equipment) and cannot guarantee the absolute safety of riders.
