Product information

Color: turquoise

The Harcour Boreal Women's Jacket in Peacock combines an elegant look with functional everyday wearability and features a clean, modern design as a wind-resistant women's jacket. The water-repellent fabric is suitable for light rain showers and mild weather conditions, while the straight cut offers a comfortable fit and allows for freedom of movement. A distinctive feature is the trench coat-inspired front and back panels, which give the jacket a stylish, contemporary silhouette.

Practical details complement the look: the tone-on-tone center zipper with a silicone slider, two concealed front zippered pockets, and the removable hood with a drawstring ensure everyday practicality and versatile use. A high collar, elastic cuffs, and an adjustable inner hem with elastic drawstrings and stoppers provide added comfort and a customizable fit. The Harcour logo on the left chest adds a signature brand touch.

- **Water-repellent fabric** for light rain and changeable conditions
- **Straight cut** for a comfortable, polished fit
- **Detachable hood** with drawstring
- **High collar** for added protection
- **Trench coat-inspired details** on the front and back
- **Two zippered pockets** on the front
- **Adjustable hem** with elastic drawstrings and stoppers
- **Material**: 92% polyamide, 8% spandex with TPU membrane
- **Lining**: 100% polyester

The Boreal women’s jacket in Peacock is a versatile transitional jacket designed for a confident look with functional appeal. The Peacock color accentuates the jacket’s striking appearance and complements its clean lines with a high-quality, distinctive touch.
