Royal Stable Gaiters Deluxe—the softest stable gaiters in the world for horses. Our stable gaiters have always been a favorite. Now we're introducing a new and updated Deluxe version of this classic. The boots consist of two parts: a durable and sturdy outer shell and a thick inner pad featuring Welltex technology. For the best possible comfort and an optimal fit, the Royal Deluxe model is anatomically shaped, which minimizes pressure on the tendons and gives the horse's legs greater freedom of movement. The inner padding features a reinforced, water-repellent hem at the bottom.
Royal Deluxe stable boots are easy and simple to put on and are an excellent alternative to bandaging. Four strong Velcro fasteners ensure a customizable and secure fit both in the stable and during transport. The outer cover and the inner pad are connected by Velcro fasteners, which makes washing and drying easier. The inner pad features our well-known Welltex technology, which helps stimulate blood circulation. This can help alleviate discomfort in horses with ligament, tendon, or joint issues. Our customers frequently use these stable boots to prevent injuries and support recovery from conditions such as inflammation, swelling, or osteoarthritis.
