Color: pink

Vibrant colors, classic design, high functionality: The new uvex sportstyle kid children’s riding glove is every bit as good as the adult models—but with trendy colors that make it even more fun! Non-slip material guarantees **a perfect grip on the reins**, while extra stretch panels ensure **high flexibility** and **comfort**. The color options are coordinated with the uvex onyxx children’s riding helmet series—an ideal and absolutely eye-catching combination for young trendsetters in the saddle. The uvex sportstyle kid is a highly elastic glove made of non-slip PU material. Durability and comfort are the hallmarks of this glove, and the **slip- and abrasion-resistant material** ensures a firm grip on the reins. The design is modeled after that of an adult glove: the practical Velcro closure with logo makes it easy to put on and take off. uvex riding gloves also stand out for their active moisture management and flexible, secure fit at the fingers.
