Thick bridle: 14 mm

Advantages of the Silver Wings snaffle bit:

- Gentle on the mouth and comfortable
- The side plates of the bit prevent painful pinching of the corners of the mouth and ensure a stable position in the horse's mouth.
- The bit plates allow for gentle lateral influence on the horse's mouth and can assist with bending and turns

Pressure Distribution

- The double-jointed mouthpiece applies even pressure across the horse's tongue and lower jaw.
- The loose rings allow the horse to move the bit independently within its mouth and bring the mouthpiece into a neutral position.
