Season:	Winter
Size of Riding Gloves:	8.5

On cold, wet days at the stable and while riding, reliable protection from the elements is a must—and that goes for your hands, too, of course. But the fact is that precise rein handling requires sensitivity and a first-class grip. None of this is a problem for the WARENDORF riding glove, which offers **excellent tactile** sensitivity and, above all, **is waterproof**. The palm is made of supple yet durable DURADERO synthetic suede and features extensive silicone coating. The glove is tailored for a snug fit and features a PFC-free, **highly breathable**, and very **elastic** VaporFlex laminate on the back of the hand. The result is a comfortable fit and plenty of

Product information

flexibility for the fingers. And when the weather gets really nasty, the **permanently waterproof** and breathable ROECK-TEX MEMBRANE protects your hands from getting cold. It’s supported by the soft, quick-drying, and climate-regulating Easy-Dry lining—for extra warmth and comfort. Practical and functional: the TOUCHSCREEN COMPATIBLE feature on the thumb and index finger—so you can keep the gloves on while typing on your smartphone and keep your hands warm. The Velcro strap on the neoprene cuff securely fastens the WARENDORF to the wrist. And because riders don’t want to sacrifice a stylish look while enjoying their favorite pastime, ROECKL has equipped this model with metallic accents on the back of the hand. Available in black and black/copper. **Back of the hand:** VaporFlex PFC-zero
Palm: DURADERO WR
Features: Easy-Dry lining, neoprene cuff with Velcro closure, ROECK-TEX MEMBRANE, SILICONE-GRIP, TOUCHSCREEN COMPATIBLE
