"Juliana" KavalSH4 Bridle

The "Juliana" KavalSH4 English-style combination snaffle bit impresses not only with its stylish appearance but also with its exceptional comfort: The headpiece features gel padding in the ear area that is particularly soft and supple. The soft padding helps alleviate pressure in the sensitive ear area. Additionally, the headpiece is anatomically shaped to allow the ears plenty of freedom of movement. The noseband is softly padded and tapers narrowly. The headband, with its curved shape and large white rhinestones, looks absolutely chic on any horse's head. The snaffle bridle comes with narrow, rubber-coated reins.

KavalSH4 – Removable stop strap without a visible attachment
On bridles marked with the KavalSH4 designation, the stop strap is removable. What makes this special is that the stop strap's attachment is not visible, unlike on conventional bridles with removable stop straps.

- English-style combination noseband, adjustable on both sides
- KavalSH4 (removable stop strap with no visible mount)
- Pressure-relieving gel padding in the neck area
- Soft, tapered noseband
- Beveled throat strap
- Curved browband with large white rhinestones
- Narrow, rubber-coated reins with barbs
