Currently out of stock.

Size of the bit:	12.5 cm
Thick bridle:	17 mm

The water snaffle is the most common bit and is well accepted by most horses. A double-jointed bit exerts more pressure on the tongue. The Argentan mouthpiece imparts a sweet taste in the horse’s mouth and warms up quickly.

- Mouthpiece material: 60% copper, 40% stainless steel
- Ring material: stainless steel
- Double-jointed snaffle bit
- Argentan mouthpiece and stainless steel rings
- Mouthpiece thickness: 17 mm
