incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Material:	Metal
Size of the bit:	13.5 cm
Thick bridle:	16 mm

The single-jointed version of the successful double-jointed Dynamic RS bits. The ergonomically shaped mouthpiece allows for quick and precise control of the tongue compared to conventional single-jointed bits. The pressure is distributed evenly across both sides of the tongue. Helpful for horses that are very active with their mouths, get distracted by the center piece of double-jointed bits, and therefore do not pay sufficient attention to the signals from the double-jointed bits.
