Color:	silver
Filling:	0 g

The WEATHERBEETA Reflective Wrap-Around Kidney Blanket is a waterproof riding blanket designed for challenging conditions, combining visibility, weather protection, and a functional fit in a well-thought-out design. The highly reflective material enhances visibility at dusk, in fog, and in inclement weather, while the saddle cutout ensures a comfortable fit while riding.

The lightweight 210T polyester lining contributes to a comfortable feel without adding unnecessary bulk. The Velcro fasteners at the withers and chest allow the blanket to be securely fastened, while the large tail flap and tail cord provide additional support and protection. The silver finish emphasizes the functional character of the design and makes the kidney blanket a suitable choice for regular use on the trail.

Available in sizes 135 cm, 145 cm, and 155 cm, the blanket is suitable for various horse types and back lengths. Machine washable at 30 degrees makes everyday care easy. Especially in changeable weather, the combination of reflectivity and waterproofing offers a practical solution for rides during the darker months of the year.

- **Waterproof and breathable riding blanket** with saddle cutout
- **Highly reflective material** for better visibility in low-light conditions
- **210T polyester lining** for a lightweight, comfortable inner material
