Color:	pink
Size of Riding Gloves:	6.5

Vibrant colors, classic design, high functionality: The new uvex sportstyle kid children’s riding glove is every bit as good as the adult models—but with trendy colors that make it even more fun! Non-slip material guarantees **a perfect grip on the reins**, while extra stretch panels ensure **high flexibility** and **comfort**. The color options are coordinated with the uvex onyxx children’s riding helmet series—an optimal and absolutely eye-catching combination for young trendsetters in the saddle. The uvex sportstyle kid is a highly elastic glove made of grippy PU material. Durability and comfort are the hallmarks of this glove, and the **slip- and abrasion-resistant material** ensures a firm grip on the reins. The design is modeled after that of an adult glove: the practical Velcro closure with logo makes it easy to put on and take off. uvex riding gloves also feature active moisture management and flexible, form-fitting fingers.
