Back on Track Royal Stable Boots—the proven solution for stressed legs...

Royal Stable Gaiters are made with the proven Welltex material, which promotes blood circulation. The sturdy Velcro straps make it easy to achieve an optimal fit around the horse's leg without risking pressure on the tendon or swollen legs. The design around the fetlock joint ensures that the stable boots fit all the way up to the coronet band. The thick padding is encased in a particularly durable neoprene cover. These stable boots are intended only for periods of rest, such as in the stable or during transport. Sold as a pair.

- Suitable as stable, rest, or transport boots.

Product information

- Suitable for horses suffering from osteoarthritis or swollen legs.
- Outer cover made of durable neoprene combined with a soft pad on the inside.
