Product information

These exclusive training boots feature a unique, flexible Carbon Storm EVA cushioning zone. The ergonomic shape and special construction ensure a perfect fit and maximum comfort. The gaiter stands out for its outstanding protection, as well as its lightweight yet durable design. The mesh fabric ensures constant 360° air circulation and even dissipation of heat radiating from the horse’s leg. The super-soft fleece lining offers optimal protection for joints and tendons, prevents pressure points, and ensures absolute comfort. The gaiters are secured with a sturdy Velcro closure system, which allows for quick and easy application while ensuring a secure fit. (Size M: 2 Velcro closures; sizes L & XL: 3 Velcro closures)
We recommend hand-washing the gaiter or machine-washing it at a low temperature with the Velcro fasteners closed on a gentle cycle.
