Currently out of stock.

Effol Maul-Butter promotes your horse’s well-being and has become a popular product for improving bit acceptance. For added variety, Maul-Butter is available in apple or banana flavors, which can stimulate chewing.
The rich formula improves the bit’s glide, ensuring it sits comfortably in the horse’s mouth. This can increase the horse’s satisfaction and, consequently, the quality of the ride (75%*). Even for horses with sensitive mouths, Effol Maul-Butter protects like a second skin and cares for the delicate corners of the mouth.
